

## Draft Audit by Settlement

### Introduction

The following profiles provide a summary of the services and facilities identified within settlement boundaries for West Berkshire, to assess the sustainability of these settlements. This excludes Newbury, Thatcham and the Eastern Urban Area as these settlements are known to have a wide range of services and facilities and therefore will continue to act as the District's urban areas.

Services or facilities within 1km of a given settlement boundary will be included in assessment except for accessibility to a railway station and employment area opportunities which have adopted a 2km search radius. For the purposes of this audit, measurements were taken from the centre of settlement boundaries.

## **Aldermaston Wharf**
